DisplayPort to HDMI over Cat5/6 Active Extender Kit, Pigtail Transmitter/Receiver for Video/Audio, 150 ft. (45 m), TAA

MODEL NUMBER: B150-1A1-HDMI

Transmitter and receiver work in tandem to convert a DisplayPort signal to HDMI and extend it over a single Cat5e/6/6a cable to a projector, monitor or television. Ideal for digital signs, schools, churches and trade shows.

Description

The B150-1A1-HDMI DisplayPort to HDMI over Cat5/Cat6 Active Extender Kit includes a transmitter unit and a receiver unit that work in tandem to convert a DisplayPort audio/video signal to HDMI and then extend it to a projector, monitor or television up to 150-ft. (45.72 m) away. The kit is ideal for digital signs, trade shows, presentations, classrooms, churches, retail settings and other applications where the video source is located farther than convention cables allow.

One Cat5e/6 cable connects the transmitter and receiver (for best results, use 24 AWG solid-wire Cat5e/6 cable, such as Tripp Lite's N202-Series). A built-in DisplayPort cable connects the transmitter to the source, while a built-in HDMI cable connects the receiver to the display. The built-in HDMI cable features a latching connector that helps prevent accidental disconnection. Included USB Micro-B cables connect the transmitter to a USB port on the DisplayPort computer or a USB wall charger (such as Tripp Lite's U280-002-W12), and connect the receiver to a USB port on the HDMI display or a USB wall charger. No external power supplies are needed.

The B150-1A1-HDMI can extend a high-definition 1080i (60 Hz) signal up to 150-ft. (45.72 m) and a 1080p (60 Hz) signal up to 125-ft. (38.1 m). In addition to crystal-clear video, including 24-bit True Color (8 bits per channel), the kit delivers full, rich stereo. Green and orange LEDs on both units indicate when they are receiving power from the USB Micro-B cables and sharing a signal. Easy to set up with no software or drivers to install. Works with all operating systems.

Features

Converts DisplayPort Signal to HDMI, Extends It Up to 150-ft. (45.72 m)

- Ideal for digital signs, trade shows, presentations, classrooms, churches, retail settings and other
 applications where the video source is located farther than convention cables allow
- Extends a high-definition 1080i (60 Hz) signal up to 150-ft. (45.72 m) and a 1080p (60 Hz) signal up to 125-ft. (38.1 m)
- Transmitter and receiver connect with one Cat5e/6 cable (for best results, use 24 AWG solid-wire Cat5e/6 cable, such as Tripp Lite's N202-Series)
- Supports 24-bit True Color (8 bits per channel) and stereo audio
- HDCP 1.3 compliant

Highlights

- Extends 1080i signal up to 150ft. (45.72 m), 1080p signal up to 125-ft. (38.1 m)
- Supports 24-bit True Color (8 bits per channel) and stereo audio
- Included USB Micro-B cables supply power to both units
- Works with all operating systems
- Plug and play—no software or drivers to install
- HDCP 1.3 compliant
- Built-in HDMI cable latches tightly for more secure connection

System Requirements

- Computer with DisplayPort output port*
- Display with HDMI input port

Package Includes

- Transmitter unit
- Receiver unit
- (2) USB Micro-B cables, 3-ft. (0.91 m)
- Owner's Manual

• Built-in HDMI cable with latching connector helps prevent accidental disconnection

Easy to Set Up and Use

- Plug-and-play engineering—no software or drivers to download and install
- · Works with all operating systems
- Built-in cables connect transmitter to DisplayPort source and receiver to HDMI display
- Included USB Micro-B cables supply external power to the units
- LEDs indicate when the units are receiving power and sharing a signal

TAA-Compliant

• Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

Specifications

OVERVIEW		
UPC Code	037332190116	
Product Type	Extender Kit	
Technology	HDMI; DisplayPort; Cat5/5e; Cat6	
VIDEO		
Max Supported Video Resolution	1920x1080 (1080p @ 60Hz)	
Max 720P Range (ft)	150	
Max 1080P Range (ft)	125	
Max 1280 x 720 (720p) Range (ft)	125	
Max 1920 x 1080 (1080p) Range (ft)	125	
Transmitter Video Input	DisplayPort	
Transmitter - Number of Video Outputs	1	
Receiver/Transceiver Video Output	HDMI	
Receiver - Number of Video Outputs	1	
Recommended Cabling	Solid Wire Cat6 Cables (Tripp Lite's N202-Series)	
HDR Support	No	
3D Video Supported	Yes	
Maximum Signal Range (ft)	150	
Maximum Signal Range (m)	46	
AUDIO		
Audio Input	Displayport	

Audio Output	НДМІ	
Audio Specification	PCM	
INPUT		
Bus Powered	No	
POWER		
Power Source Type	USB	
Power Source	Transmitter and Receiver (Included)	
Power Over Cable (PoC) Support	No	
USER INTERFACE, ALERTS & CONTROLS		
LED Indicators	TX & RX: (x1) Green (Connection), (x1) Orange (Data transmission)
